

Freshman Fella: Brandon Blaylock

By: Braden Landreth, Staff Writer

Brandon Blaylock, a 15 year old freshman here at Bethel High School, is a very interesting young man. One interesting fact about Mr. Blaylock is he is a much older freshman despite his baby face. Brandon participates in many activities outside of school such as guitar, flirting, and drinking bottled water.

Blaylock would like everyone to know that he does not sing along with his guitar playing due to the fact that he "sounds like a dying cat on fire".

After being asked what he would bring if he was stranded on an island he replied "Matches and my favorite sister".

His favorite sports team is OSU, which you can see him represent almost every day. Mr. Blaylock is best known for winning dress up day during spirit week.

By: Brionna Cole, Staff Writer

Coach Madonna is one of the few teachers that are new here to Bethel this year. Before coming to Bethel, Madonna taught computers and math in Midwest City. When asked what one of his favorite things about Bethel, he simply said "Too many to choose from". Not only does he like Bethel, he even teaches High School football, marketing, and ACT Prep.

Aside from teaching at Bethel, in his spare time he likes to watch movies, play video games and lift weights. If you haven't met him you can stop by his classroom or come to one of the football games!

Obama Care

By: Marcia "The Dazzling M" Clemmons

(cont. from pg 1) The Democrat interviewee's view is that the affordable care act helps the poor and middle class by preventing them from going bankrupt by serious medical conditions (cancer and other serious conditions). The Republican interviewee's view is their tax money is going to subsidize health insurance for the poor because they are choosing to be lazy and not working. If they really wanted better healthcare they should get a better education and jobs with better health benefits and insurance.
